

## Businesses are ALL open!

We encourage everyone to continue shopping, dining, and supporting our local merchants during this exciting time of transformation.

### Downtown Rebuilding Infrastructure Project - Public Update

We appreciate your continued patience and support as the Downtown Rebuilding Infrastructure Project progresses. Our goal is to revitalize key infrastructure while maintaining a safe and accessible environment for businesses, residents, and visitors.

#### Accessing Downtown

- **Commercial Access:** Safe pedestrian routes are available around the construction zone. Please follow directional signage and use marked walkways.
- **Vehicle Detours:** Detour 4 (D-4) signage is in place to guide drivers around active construction zones.
- **Access maps** are located on the reverse side of this flyer!
- **Parking:** Designated public parking lots have been expanded and are open.

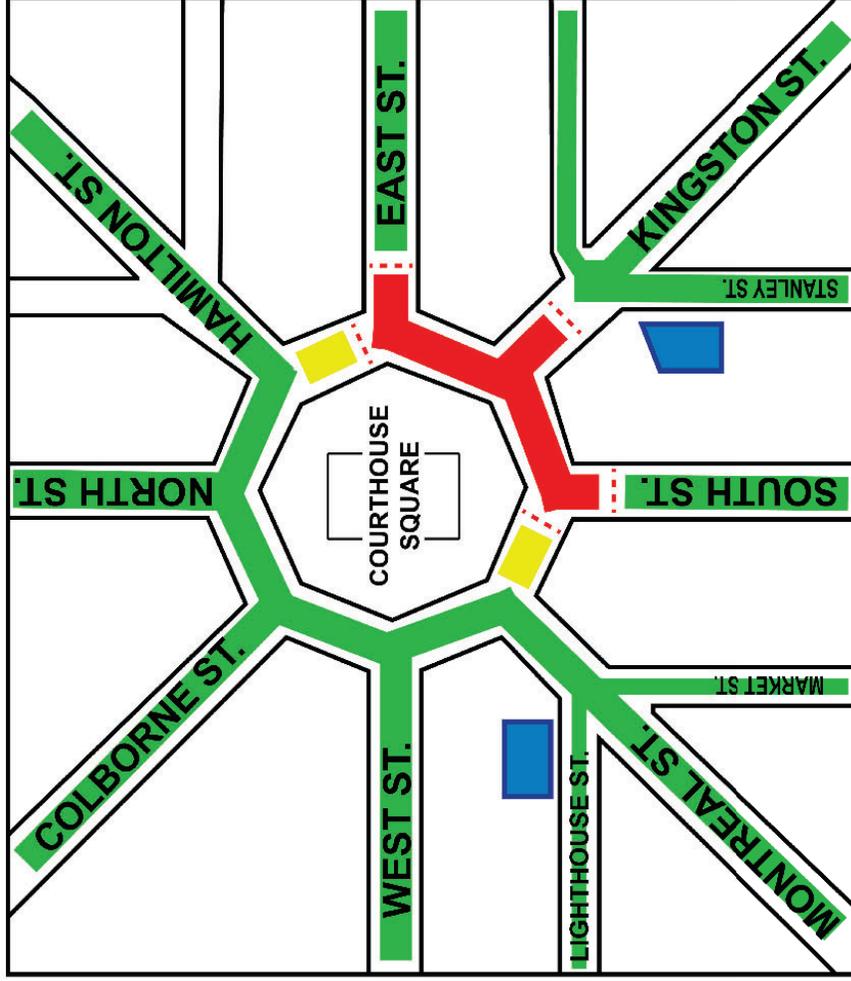

Parking is available on the Courthouse Square, however, space may not be found directly in front of your destination. *Please consider those with accessibility needs when parking.*

The Town of Goderich website hosts a detailed archive of the Downtown Rebuilding Infrastructure Project planning phases, 3D renderings of future streetscapes and weekly construction updates.

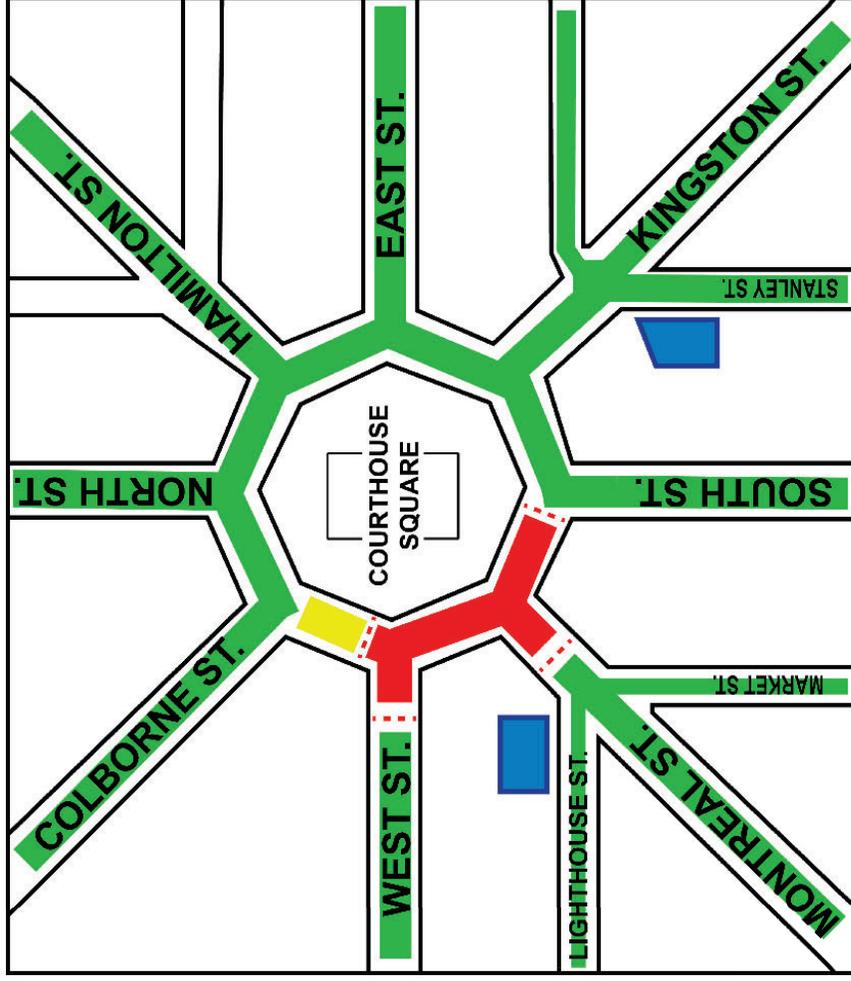

**Use QR code provided:** Open camera app, point camera at the QR code, wait for a notification, and click the link that appears. [www.goderich.ca](http://www.goderich.ca)
